ACKNOWLEDGMENT

First and foremost, I would like to express my deepest gratitude to my college for providing me with the opportunity and resources to undertake this project.

I extend my sincere thanks to my Teacher, **Mam Baljinder Kaur**, for his invaluable guidance, constructive feedback, and constant encouragement throughout the project. His expertise and support were instrumental in achieving the objectives of this work.

Thankyouall

1. Introduction:-

This report presents an analytical overview of the performance of the "Vrinda Store" for the year 2022. The analysis focuses on customer demographics, sales trends, order status, geographic spread, and platform performance. The goal is to extract insights that can guide strategic decisions for improving sales, customer targeting, and channel optimization.

2. Source of Dataset

The dataset was sourced from the internal sales records of Vrinda Store, compiled in an Excel workbook containing multiple sheets. These sheets include raw transaction-level data as well as pre-aggregated statistics on sales performance, customer demographics, order statuses, and geographical distributions.

Link:- <https://www.kaggle.com/datasets/anshika2301/vrinda-store-data-analysis>

3.Dataset Preprocessing

Preprocessing steps included:

- Cleaning column names and removing unnecessary empty rows.
- Converting date columns to proper datetime formats.
- Categorizing age into groups: Teenager, Adult, and Senior.
- Filtering and mapping values for uniformity (e.g., gender, status, channels).
- Aggregating data for monthly, gender-based, and state-level analysis.

4. Analysis on Dataset (for Each Objective)

Objective 1: To analyze the monthly trends in orders and revenue generation.

- This objective focuses on identifying seasonal patterns and understanding the overall performance of the store throughout the year.

Objective 2: To evaluate the impact of customer demographics (gender and age group) on sales.

- Understanding which demographic groups contribute the most to sales can help in targeted marketing and product development.

Objective 3: To assess order status distribution to understand fulfillment efficiency.

- Analyzing the distribution of delivered, cancelled, and refunded orders helps evaluate operational efficiency and customer satisfaction.

Objective 4: To identify top-performing states by revenue contribution.

- Pinpointing the regions that generate the most revenue assists in focusing expansion and promotional efforts.

Objective 5: To examine the performance of different online sales channels.

- Comparing platforms like Amazon, Flipkart, and Ajio reveals which channels are most effective for reaching customers and generating revenue.

Objective 8: Dashboard

Proud to share my project for INT 217 - Introduction to Data Management, completed under the mentorship of Ms. Baljinder Kaur at [Your Institution Name]!

Project Overview: This project involved analyzing real-world data using tools like Excel for cleaning, organizing, and visualizing datasets. The aim was to understand and apply the core concepts of data management, which is essential for any data-driven decision-making process.

🎯 **Objectives of the Project:**

- To understand the principles of data collection, storage, and analysis
- To apply data cleaning techniques to ensure accuracy and consistency
- To perform data analysis using statistical functions and visualization tools
- To generate insights and make data-informed decisions
- To present data in a meaningful and organized way for stakeholders

📊 This experience has strengthened my skills in data wrangling, Excel analytics, and critical thinking — all of which are essential in today's data-driven world.

Feel free to check out the project and let me know your thoughts! 🙌

Conclusion

Vrinda Store's 2022 performance shows strong customer engagement, especially among adult women and in states like Maharashtra and Karnataka. Amazon remains the primary sales channel, and order fulfillment rates are high. These insights help tailor future marketing and operational strategies.

6. Future Scope

Introduce predictive analytics for sales forecasting

Expand demographic segmentation for targeted marketing

Optimize underperforming channels (e.g., Ajo)

Regional promotions in emerging markets like Bihar and Assam
